

# LogHog<sup>®</sup>

## Heavy Duty Log Home Fastener

**LogHog is a heavy duty structural wood screw, engineered for specific log home construction applications.**

**With its oversized head, thicker diameter and additional thread, LogHog offers increased draw-down and holding power.**

### **Features:**

- Oversized washer head and increased thread combine for dramatically increased pull-down
- Installs faster and easier than lags & spikes
- Requires no predrilling
- Countersinks into log allowing log to settle naturally
- Draws warped logs down
- Removable and adjustable
- Eliminates jarring and damage caused by a sledge hammer
- Guaranteed corrosion resistance
